Education

- **University of Southern California** — Los Angeles, CA
  Ph.D. in Mechanical Engineering (Robotics) — *2021 - present*
  - **GPA**: 4.0/4.0
  - **Advisor**: Quan T. Nguyen
- **Isfahan University of Technology** — Isfahan, Iran
  M.Sc. in Mechanical Engineering (Robotics) — *2017 - 2020*
  - **GPA**: 4.0/4.0
  - **Thesis**: Real-time Haptic Rendering for Deformable Objects based on Machine Learning
- **Sharif University of Technology** — Tehran, Iran
  B.Sc. in Mechanical Engineering — *2013 - 2017*
  - **GPA**: 3.71/4.0
  - **Thesis**: Optimal Path-Planning for Mobile Robots based on Machine Learning

Research Interests

- Robotics
- Model Predictive Control
- Legged Locomotion and Manipulation
- Reinforcement Learning

Publications

[1] **M. Sombolestan** and Q. Nguyen, "Adaptive Force-Based Control of Dynamic Legged Locomotion Over Uneven Terrain," *IEEE Transactions on Robotics*, pp. 1–16, 2024. DOI: 10.1109/TRO.2024.3381554.

[2] **M. Sombolestan** and Q. Nguyen, "Hierarchical Adaptive Control for Collaborative Manipulation of a Rigid Object by Quadrupedal Robots," in *2023 IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)*, IEEE, Oct. 2023. DOI: 10.1109/IROS55552.2023.10341700.

Honors

- Ranked **1st** among more than 140 mechanical engineering students in Master Degree 2020
- Ranked **268th** among 260000 participants in Iranian University Entrance Exam (Konkur) 2013
- One of the finalist team in Mathematics A-lympiad competition, Amsterdam, Netherlands 2012

Work Experiences

- **Field AI** Mission Vijeo, CA
  Ph.D. Research Intern *Summer 2023*
  - Designing and implementing a vision-based locomotion controller for Unitree quadruped robots utilizing nonlinear model predictive control (NMPC). The aim was to facilitate stair climbing and enhance navigation through complex terrains found in construction sites.

- **Dr. Robot Co.** Tehran, Iran
  Control Engineer *2016 - 2017*
  - Contributed as a member of the technical team for the ROMA robot project, an innovative humanoid robot designed specifically for the fashion industry to captivate customer attention.

Research Experiences

- **Dynamic Robotics & Control Lab (DRCL)** Los Angeles, CA
  Graduate Research Assistant - Supervised by Dr. Q. T. Nguyen *2020 - present*
  - Focused on enhancing legged robot dynamic locomotion in real-world environments by combining adaptive control with model predictive control (MPC) to address uncertainties.
  - Leveraging the quadruped robot's body for manipulating unknown objects through introducing an adaptive loco-manipulation controller and extending it for a team of robots for collaborative manipulation tasks.
  - I possess valuable expertise in developing and implementing controllers for Unitree quadruped robots (A1, Go1, and AlienGo) both in physical hardware and simulation environments.

- **Isfahan University of Technology** Isfahan, Iran
  Research Assistant - Supervised by Dr. M. Danesh *2018 - 2019*
  - Designing a model-free control system for continuum manipulators based on an adaptive neural network. The simulations conducted in MATLAB and the results maintain the capability of the proposed algorithm.

- **Center of Excellence in Design, Robotics, and Automation (CEDRA)** Tehran, Iran
  Research Assistant - Supervised by Dr. A. Meghdari *2016 - 2017*
  - Designing and manufacturing ROMA an autonomous *Robotic Mannequin* for fashion industry. The robot can imitate the human's posture when interacting with customers.

Software and Programming Skills

- Programming and Markup Languages:
  - **Professional**: C++, Python, MATLAB
  - **Have Experience with**: TensorFlow, Keras
- Technical Software and Simulators:
  - **Professional**: ROS, Gazebo, Simulink
  - **Have Experience with**: Pybullet, MuJoCo
- Optimization Packages:
  - **Professional**: OCS2, OSQP, qpOASES

Teaching Assistant Experiences

- **University of Southern California**
  - Robot Dynamics and Control [AME 556] — Spring 2023 & 2024
- **Isfahan University of Technology**
  - Dynamic — Fall 2018
  - Automatic Control — Fall 2018
  - Strength of Materials II — Spring 2018

Professional Services

Reviewed papers for:

- ICRA (2023, 2024)
- IROS (2022, 2023)
- RA-L (2023, 2024)
